CANTONAL QUALITY CONTROL AT THE AARGAU PRIMARY SCHOOL

Information on the survey for parents

Dear parents,

Every five years, the cantonal School Supervisory Authority (Schulaufsicht) checks at every school in the canton of Aargau whether the school meets the defined quality requirements and complies with the cantonal regulations¹. A written survey with parents is an important part of this examination procedure. It is possible that parents will be asked for additional interviews at a later date. The surveys are carried out by the Teacher Education Department of the University of Applied Sciences Northwestern Switzerland on behalf of the School Supervisory Authority.

With this letter, you will receive an access code (TAN) for the online survey. Use this to log on. So that your anonymity is preserved, passwords and names do not correspond to each other.

It takes about 20 minutes to answer the questions. You can answer the online survey from a computer, tablet or smartphone. If you have several children at school, you can fill in one or more surveys.

About the procedure:

- You can either use the internet address **www.vorbefragung.ch** (using a PC) or scan the QR code (using a smartphone or tablet).
- Then enter your access code in the field "**TAN / Losung**".
- The survey is published in German. You can select eleven additional languages from the drop-down menu.
- Answer the questions within the **given time frame**.
- Finish the survey by clicking "**Absenden**".

The School Supervisory Authority is very interested in your viewpoint and thanks you for participating in the survey.

Yours sincerely,

Schulaufsicht
